

**ALLERGY WEST BILLING POLICY**  
For  
**Allergy Testing and Serum Mixing**

**ALLERGY TESTING**

Any allergy testing is a separate billable procedure code. Examples include skin prick testing, intradermal testing, patch testing, penicillin/drug skin testing, venom skin testing, food challenges, drug challenges. (This is not a full list of services provided in our office.) It is the patient/guarantor's responsibility to know:

1. Is this service covered by my insurance plan?
2. Do I have a cost-share and/or deductible for this service?
3. If your insurance requests a procedure code (CPT) please provide:

<u>CPT code</u>	<u>Service</u>
95004	Skin prick test
95024	Intradermal test
95044	Patch test
95017	Venom skin testing
95018	Penicillin skin testing
95076 &95079	Food challenge
95076 &95079	Drug challenge
94010	Spirometry
95012	NIOX

**SERUM MIXING**

For our patients on immunotherapy (IT), we will charge your insurance a fee for mixing/re-mixing your allergy serum. These serums may or may not be mixed on a date of service you are in the office. It is your responsibility to know:

1. Is this service covered by my insurance plan?
2. Do I have a cost-share and/or deductible and/or out of pocket expenses for this service?
3. If my insurance has changed, this may affect the billing of allergy serums and the charges that you personally see.
